

# Requirement File for Web Scraping Project

---

## Objective

To extract the full list of real estate professionals from the following website:

### Target Website:

<https://registre.oaciq.com/fr/trouver-courtier>

---

## Scope of Work

### 1. Scraping Goals

- Extract data for approximately 15,000 professionals.
- Each record should include:
  - Full Name
  - Email Address (if available)
  - Contact
  - Address

### 2. Scraping Instructions

- Access the site and click "Search" without entering any filters to load the complete list.
- The site uses Cloudflare protection, so scraping will require advanced handling such as headless browsing, delays, or proxy use.
- Ensure no duplicates and complete data extraction.

### 3. Special Notes

- Emails are available on some profiles, usually near the bottom.
- 
- 

## Deliverables

- One Excel file (.xlsx) with all extracted records
- Structured and cleaned dataset

# ERIC GOURDEAU
